STATES OF CHANGE

Creating a theory for change (quick & dirty)
This tool will help you to start setting out the change you want to see and identifying the possible actions you believe may lead to these changes.

Team:

Project title:

....

....

Problem hypothesis
Write out you "if......... then ...." statement.

Possible actions
What are the possible actions you could take to implement this?

Desired impact
What would be the desired, or assumed, results of these actions?
